

ecoLINK

An ultracompact business desktop with versatile mounting options for a customized workspace. The ecoLINK is simple to connect and simple to set up. Pre-installed with PaperCut MF, the ecoLINK provides your client's controlled printing without the need of buying costly server hardware.

ecoLINK Benefits

The ecoLINK is a solution for those with a limited budget for enterprise level hardware. Hosting print queues, user's print data, and PaperCut MF, ecoLINK is an all-in-one solution.

Pre-loaded with PaperCut MF, the ecoLINK can be configured as the application server, secondary server, or site server for the user's environment, allowing for management and tracking for printing, copying, and scanning. ecoLINK can also be configured as a release station and/or paystation. Set up BYOD with PaperCut's Mobility Print feature and hold jobs until they're securely released.

The ecoLINK is perfect for:

Law Firms

Lawyers and paralegals have specific billing needs related to cost recover for printing and copying. With ecoLINK hosting PaperCut MF, it can be the connectivity hub for all the printing transactions done daily to accurately support bill-back to clients.

Small to Medium Businesses

Businesses that often have less than 50 employees may have just one IT staff member holding down the fort. ecoLINK is the perfect cost and time-saving solution because it's pre-loaded with all the software needed to quickly install and maintain PaperCut MF, giving your IT staff member a break.

Shared Office Spaces

Pre-configured to be flexible and support bring-your-own-device (BYOD) printing, the ecoLINK is the perfect all-in-one solution to bill back your clients for all their printing and copy needs. The perfect answer to providing the required printing services for shared office spaces.
